ABOUT US

KeyPh Solar Solutions Pvt Ltd is incorporated with the idea of providing non-polluting renewable energy to all. We strongly believe that every responsible and committed individual, as well as corporate body who strives to minimize their carbon footprint should have access to cost-effective, high quality and high performance renewable solutions.

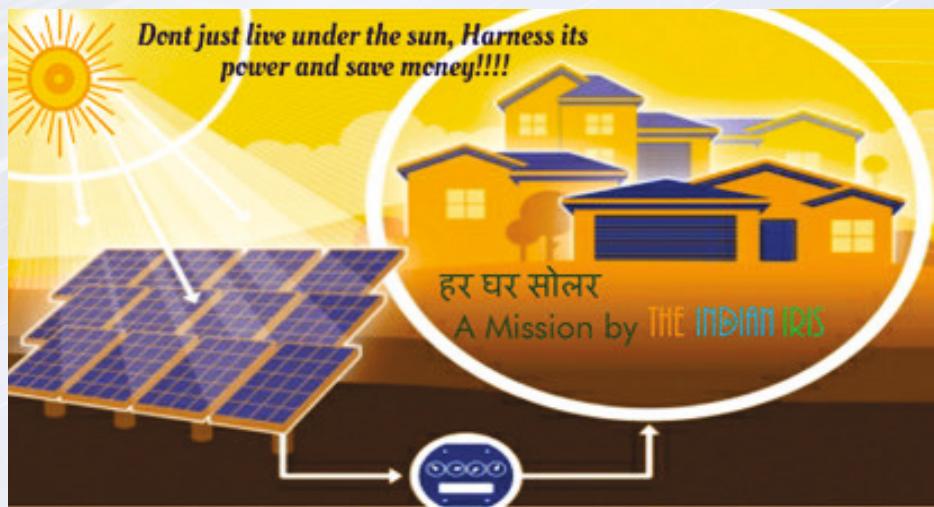

KPSS is an energy consultant and Engineering, Procurement and Construction (EPC) solutions provider for residential, commercial and industrial power. We understand our customers' energy consumption patterns and work out economically viable options to switch to renewable energy solutions. Our team of experts bring together years of experience with renewable energy technologies and are passionately dedicated to providing sustainable energy solutions.

VISION AND MISSION

To become a leading global solar company, delivering state-of-the-art sustainable energy solutions, recognized for innovation, excellence, and commitment to creating a greener future, pushing solar technology boundaries.

01

Harness Abundant Power

To tap into the vast potential of solar energy to provide a clean and sustainable source of power.

02

Transition to Clean Energy:

To aid in the transition from traditional, polluting energy sources to clean and sustainable alternatives.

03

Minimize Carbon Footprint

To help reduce the carbon footprint of individuals and corporations through the adoption of renewable energy solutions.

THE PROBLEM

Rising energy costs

Energy prices are skyrocketing, making it difficult for individuals and businesses to afford essential services

Energy insecurity

The lack of reliable and sustainable energy sources leaves communities vulnerable to power outages and economic instability.

Limited access to energy

Millions of people around the world lack access to electricity, hindering economic development and social progress.

Environmental degradation

The reliance on fossil fuels is causing devastating environmental harm, including climate change, air pollution, and water pollution.

::

THE SOLUTION

Affordable energy

Our solar panels and systems are designed to provide reliable and clean energy at a competitive cost, making it accessible to individuals and businesses of all sizes.

Energy independence

With our solar systems, you'll have control over your own energy production, reducing your reliance on the grid and providing peace of mind.

Sustainable energy source

Our solar panels and systems are designed to provide reliable and clean energy at a competitive cost, making it accessible to individuals and businesses of all sizes.

WHY CHOOSE KEYPH SOLAR SOLUTIONS?

Expertise and Experience

- Our team comprises of experienced professionals who are experts in renewable energy solutions.

Customer-Centric Approach

- We prioritize our clients' needs, working diligently to provide solutions that exceed expectations.

Comprehensive Services

- From consultation and product selection to installation and maintenance, we offer complete solar energy solutions.

Advanced Technology

- Our partnerships with leading manufacturers ensure access to cutting-edge technology in solar and EV charging solutions.

OUR SERVICES

On-Grid Solar Systems: These systems are connected to the utility grid and do not require batteries. They are suitable for customers with stable grid power and minimal power cuts.

Hybrid Solar Systems: These systems combine the benefits of on-grid and off-grid solar systems, allowing customers to store excess energy in batteries for later use.

Performance Monitoring: The company monitors the performance of solar systems to track energy output and identify any discrepancies or declines in performance.

Off-grid installation & AMC Services: We design and install off-grid solar systems, providing reliable energy solutions for remote locations. Our AMC service ensures optimal performance, maintenance, and repair of installed systems.
